

## Number Formation Poem

Number 1 is like a stick,  
A straight line that is very quick.

Make a loop and then a line  
That's the way to make a 9.

For number 2 go right around,  
Then make a line across the ground.

Make a 1 and then a 0.  
10 are all the fingers you know!

Go right around. What will it be?  
Go round again to make a 3.

Down and over and down some more.  
That's the way to make a 4.

Go down and around and then you stop.  
Draw a line across the top.

Make a curve. Then make a loop.  
There are no tricks to make a 6.

Across the sky and down from heaven.  
That's the way to make a seven.

Make an 'S' and then don't wait.  
Go up again to make an 8.
